HOLIDAYS HOMEWORK CLASS VI

ENGLISH:

SECTION A –(COMPREHENSION PASSAGE)

Q1. Read the given passage and answer the questions that follow:

How can you best improve your English depends on where you live, and particularly on, whether or not you live in an English-speaking community. If you hear spoken English everyday and mix freely with English speaking people, that is on the whole is an advantage. On the other hand, it is often confusing to have the whole language poured over you at once. Ideally, a step by step, course should accompany or leap upto this experience. It will also help a great deal if you can easily get the sort of English books in which you are interested.

To read a lot, is essential. It is stupid not to venture outside the examination set books or text books you have chosen for the intensive study. Read as many books in English as you can, not as a study but for pleasure. Donot choose the more difficult books, you find, with the idea of listing and learning as many new words as possible.

Choose what is likely to interest you and be sure in advance that is not too hard. You should not have to constantly looking up for new words in the dictionary, for that deadens the interest and checks real learning. Look up a word here and there but, as a general policy try to push ahead, guessing what words mean from the context.

It is extensive and no intensive reading that normally helps you to get interest in extra reading and thereby improve your English. You should enjoy feeling which extensive reading gives, some command of the language. As you read, you will become more and more familiar with words and sentence pattern you already know and thereby improving upon your English.

Q1. When can you learn English faster?

Q2. What does the author recommend for learning English?

Q3. How can reading help us to learn English?

Q4. Learning and improving English depends on what factors?

Q5. Write down antonym of word ‘accompany’.
