

KALAM HOUSE

'Look at the sky. We are not alone. The whole universe is friendly to us and conspires only to give the best to those who dream and work.

-Dr. APJ Abdul Kalam

Dr. APJ Abdul Kalam was one of the world's greatest scientists, greatest teachers and an inspiring visionary. He was an educator par excellence and for whom sovereign boundaries did not matter when it came to a child's education.

Going by the philosophy of Dr. Kalam, the House aims to help each child to develop his/her capacities and unborn talent to the fullest.

The students participated in various inter-house competitions with full zeal and enthusiasm.

The House aims at shaping students mind to inspire them to walk the extra mile and achieve their dreams which cannot be described in words and in making education reachable, flexible and feasible for all.

The House aims at encouraging students to think differently, to invent, to travel the unexplored path, to discover the impossible and to conquer the problems and succeed. These are great qualities that students must work towards.

To succeed in your mission, you must have single-minded devotion towards your goal.

KALPANA HOUSE

"The path from dreams to success does exist. May you have the vision to find it, the courage to get on to it, and the perseverance to follow it. Wishing you a great journey."

Kalpana Chawla

Kalpana House is named after Kalpana Chawla, an Indian-American astronaut and the first Indian woman in space. Taking her ideals as our guidelines and her words as the motivational force Kalpana house worked as a team where teamwork became the fuel that allows common people to attain uncommon results. Throughout the year Kalpana House students strived to live up to. The hidden talents of the students were explored and nurtured to ensure maximum participation in various inter-house competitions with full zeal and enthusiasm. The hard work and devotion towards the House finally paid off. The house reared the fruits of success by striving and never yielding efforts.

I hope that our house will not let down the house spirit and march ahead with the same enthusiasm. I express my deep gratitude towards our well wishers who supported and motivated in all aspects. I will also thank all the students of the House for their efforts and enthusiasm.

TERESA HOUSE

'Be faithful in small things because it is in them that your strength lies.'

-Mother Teresa

Teresa house strives to establish an entitlement for all the children to develop and apply the knowledge, skills and understanding that will help them become successful learners, confident individuals and responsible citizen.

The spirit of the competition is truly alive in Teresa house. The house participated in all the events with full gusto and always held its head high with 'Never Say Die' spirit.

The aim of the house is to develop a positive attitude towards school. We also aim at helping each child in building habit of concentration and developing habits of initiation and persistence. We aim to inculcate the thoughts and beliefs of Mother Teresa in our students so that they can become socially and morally responsible students of India and contribute to make India the best and safest place to live in.

Yesterday has gone, tomorrow has not yet come, we have only today: Let us begin.

RADHA KRISHNAN HOUSE

'No one who holds himself aloof from the activities of the world and who is insensitive to its woes can be really wise.'

The house aims to inculcate in our students the essential qualities of leadership, team work, cooperation, mutual understanding and self-reliance. It aims at shaping the young individuals into ones that have a sound ethical base and a strong sense of social responsibility.

The motto of the house is " Tamaso Ma Jyotirgamaya" from darkness lead us to light, encapsulates the significance of education and knowledge and an understanding of one's true nature and realization of one's true potential. This motivates the students to enthusiastically participate in various inter-house activities held throughout the year. It gave a platform to students to discover their innate talents. Based on the words of Dr. Radhakrishnan, "When we think we know, we cease to learn"; the house aims to promote learning in a continuous and ongoing way.

The students of the house adapt themselves to become unostentatious in behavior, prompt in action and sympathetic in their dealings.

'A life of joy and happiness is possible only on the basis of knowledge and science.'
